

Lilly Borough Water Authority

LILLY, PENNSYLVANIA

RESOLUTION

Resolution No.: September 2022-1

*A Resolution of the Lilly Borough Water Authority
Amending the Rates and Rules for the Supply
of Water in the Borough of Lilly and Township
of Washington, Pennsylvania Providing for the
Estimation of Water Bills in Situations Where
the Customer's Meter is Obstructed by any
Natural or Man-Made Objects or Things*

WHEREAS, on January 3, 2011, the Lilly Borough Water Authority (the "LBWA") approved the Rates and Rules for the Supply of Water in the Borough of Lilly and Township of Washington, Pennsylvania (the "Rates & Rules"); and

WHEREAS, the LBWA customer's bills for water service are calculated by reading the meter installed at the customer's property; and

WHEREAS, it has come to the LBWA's attention that some customer's meters are obstructed by natural and/or man-made objects or things that render meter reading difficult and in some instances impossible; and

WHEREAS, the LBWA herein amends the Rates & Rules to provide for a procedure to be followed when a customer's meter is obstructed.

NOW THEREFORE, **BE IT RESOLVED** by the Lilly Borough Water Authority as follows:

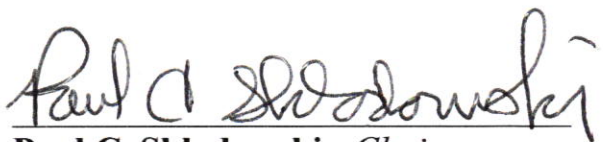

Section 11 of the Rates & Rules shall be amended to read as follows:

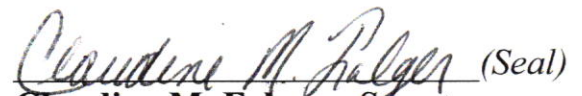

11. INSPECTION OF PREMISES

- (a) All service lines and fixtures, including any and all fixtures within the premises receiving the supply of water, shall at all reasonable hours, be subject to inspection by any duly authorized employee of the LBWA.
- (b) If any inspection reveals an obstruction of the customer's water meter, such that the reading of the meter is determined by the LBWA to be difficult or impossible, then the LBWA shall cause written notice to be sent to the customer. Said notice shall advise the customer to remove any obstruction(s) to the meter and that failure to do so prior to the next reading will result in an estimated bill as provided for herein.
- (c) Upon a customer's failure to remove any obstruction(s) to their meter, the customer's next bill shall be estimated by averaging the highest three months usage within the previous twelve consecutive months.

RESOLVED this seventh day of September, 2022

**LILLY BOROUGH WATER
AUTHORITY**
